NPIC/P&DS-402-65

9 November 1965

MEMORANDUM FOR: Division and Staff Chiefs, NPIC

SUBJECT : Design Objectives for the Unconventional
Imagery Systems Program

1. The subject objectives have been published and will be mailed to industry about 15 November.

2. These objectives on the Unconventional Imagery Systems Program are designed to stimulate interest and to inspire the solicited organizations to send representatives to the Bidders' Conference at NPIC on 2 December 1965. At that time, representatives at the conference will receive another document containing additional information and amplification of the published requirements. In addition, the conference will include a question and answer period to cover all aspects of the program.

3. Please examine these objectives and let me have your comments, if any, before 15 November. These will be used for amplification of the attached objectives at the Bidders' Conference.

25X1

Assistant for Plans and Development

Enclosure:
Unconventional Imagery
Systems Objectives

Distribution:
All Division & Staff Chiefs
